ABOUT US

Learn more about us
and join the JF Package
Family!

01

J.F. Package is an industrial company with more than 30 years of experience in the creation of projects and engineering designs on cardboard. Our goal is to support continuous improvement system with consulting focused on processes, technology, products, engineering and production areas.

The strategic location of our plant allows us to have unparalleled logistics, having an installation of 2,200 m² and 9m² in height, gives the opportunity to keep a negotiated and authorized inventory with the client, and to be able to deliver the product, **Just in Time!**

“

*It's hard to beat a person that
never give up - Babe Ruth*

”

MISSION

Our mission is to be your most reliable commercial partner, complying with your product specifications, time delivery and competitive price. Support the continuous improvement system with consulting focused to process, technology, products, engineering and production areas.

VISION

We are looking for your wellbeing of our customers as well as, development of our human resources including owners, employees and community. JF Package cares about Nature, that is why we perform all governmental and environmental regulations.

We believe in team work, including our commercial partners, suppliers, workers, and community in general.

We are orientated to a win-win strategy.

WHAT WE DO

Our commitment is
important!

02
